STATE BOARD OF MEDICAL EXAMINERS

Important Notice

The annual tax is due January 1, 1921. If you have changed your address and failed to notify the Board of Medical Examiners at Sacramento do so at once.

AN ANCIENT OPINION ON THE PHYSICIAN*

"Honour a physician according to thy need of him with the honours due unto him; for verily the Lord hath created him. For from the Most High cometh healing; and from the king he shall receive a gift. The skill of the physician shall lift up his head; and in the sight of great men he shall be admired. The Lord created medicines out of the earth; and a prudent man will have no disgust at them. Was not water made sweet with wood, that the virtue thereof might be known? And he gave men skill, that they might be glorified in his marvellous works. With them doth he heal a man, and taketh away his pain. With these will the apothecary make a confection; and his works shall not be brought to an end; and from him is peace upon the face of the earth."

"My son, in thy sickness be not negligent; but pray unto the Lord, and he shall heal thee. Put away wrong doing, and order thine hands aright, and cleanse thy heart from all manner of sin. Give a sweet savour, and a memorial of fine flour; and make fat thine offering, as one that is not. Then give place to the physician, for verily the Lord hath created him; and let him not go from thee, for thou hast need of him. There is a time when in their very hands is the issue for good. For they also shall beseech the Lord, that he may prosper them in giving relief and in healing for the maintenance of life."

CORDIAL CONGRATULATIONS, CALIFORNIA!

We congratulate the people of California on the high character of intelligence and fine discrimination which they exercised on Propositions 5, 6, 7 and 8 on November 2d. These four propositions which were popularly known as the "Quack Quartet" were promoted by the allied hosts of quackery, but despite the vast sums of money that they spent, despite the orgy of lurid literature and advertising, despite their mendacious mouthpieces, despite all the misrepresentation and ballyhooing of their combined forces up and down the highways and byways of the state, the people of California defeated them decisively.

"The Quack Quartet" challenged the right of modern medicine to progress, to seek or to teach knowledge; it tried to render the State Board of Health powerless; it endeavored to discredit the great work of the medical profession in the world war; it decried and defied scientific standards; it vilified research work; it disparaged preventive medicine; it uttered false statements more rapidly than they could be contradicted. It proceeded on the theory that you can fool some of the people all the time. In this it succeeded, but it failed to fool a majority of the people. The majority of the people voted to keep California the nation's health resort, a safe place to live and a sane place for business.

Through the Journal and through the activities of the League for the Conservation of Public Health, the danger of the battle which has just been won has been placed before our readers many times during the past year. The purpose of the "Quack Quartet" was clearly and forcefully expressed by its leading member who declared: "We're going to bust California wide open." That these anti-health forces did not succeed in

* From Ecclesiasticus XXXVIII. 1-14 verses.

Collected Clippings on Medical Law Enforcement

Colusa's Daniel

There's a judge up in Colusa, the Hon. Ernst Weyland, who apparently believes that his judgments extend far beyond the rice fields and the limits of the law. On October 10, 1920, with an innocence of California statutes that is simply bucolic, the learned Judge issued a permanent injunction purporting to restrain the State Board of Medical Examiners from revoking the license of W. F. Harlan, an osteopath of Arbuckle.

Legal action against the Board can only be brought in the cities of Sacramento, San Francisco and Los Angeles.

On the occasion when the Judge rendered his anomalous decision, a Boston lady leaving the courtroom was overheard saying: "Of all the causes which conspire to blind man's erring judgment and misguide the mind—permanent injunctions issued by temporary people are perpetually phenomenal."

Miracle Man Reaches Goal

Armando Domingues, "the Miracle Man," three times charged with violating the laws of California governing the treatment of the sick, and three times acquitted by a jury of his peers, was declared insane October 6th and committed to Patton State Hospital.

Dominguez Pleads Guilty

Apolmar Dominguez of Santa Ana, no relation to "the Miracle Man," but also a law violator, pleaded guilty and paid a fine of \$100.00.

Open Season For Herbalists

B. Y. Gwan, Chinese herbalist of Marysville, Lan Sun, Chinese herbalist of San Francisco, Shun Chew or Ah Ping, Chinese herbalist of Santa Rosa,

Wah Lee, Chinese herbalist of Watsonville, Go Gew, Chinese herbalist of Oakland, C. T. Chu or S. E. Gee, Chinese herbalist of San Francisco,

Quong Kee, Chinese herbalist of Chico, have all been arrested recently and are awaiting trial.

Chew Shun, Chinese herbalist of Stockton, was fined \$200.00 on November 6th, and M. T. Mar On Woo and See Tai Bong of the same place paid similar penalties for violating the medical practice act. Chew Yuen of Red Bluff paid a fine of \$350.00 following his conviction on a charge of violating the Harrison Narcotic Act. His appeal was denied and his bomsmen ordered into court to tell what they know regarding his whereabouts. Chung was sentenced to five years and a fine of \$5100.00.

Obituary

ALONZO S. LARKEY, Oakland

Whereas, Death has claimed another member of the Alameda County Medical Association in the sudden passing of Dr. Alonzo S. Larkey in the prime of his usefulness, and

Whereas, During his thirty years of active practice in the City of Oakland he was beloved and respected by all, ever ready to sacrifice himself for others in public or private service, and in the high tide of his professional career, no call upon him was ever turned away.

He was cheerful, kindly and ever faithful to his fellowmen, and he has left an indelible impression on the hearts of his friends, and of a great community, which mourns his loss. Now, therefore, be it

Resolved, That in the death of Dr. Alonzo S. Larkey, the City of Oakland has lost a patriotic, esteemed citizen, and the medical profession a member of unusual ability, whose devotion to his chosen life work will always be an inspiration and challenge to those of us left to "carry on"; and be it further

Resolved, That these resolutions be entered upon the minutes of the Alameda County Medical Association, a copy sent to the State Medical Journal, and also one to the bereaved family, with the deepest sympathy of the Association.

Deaths

GRAY, EDWARD.—A graduate of the College of Physicians & Surgeons; New York, 1875. Licensed in California 1877. Died while boarding a train in Berkeley, Calif., November 1, 1920.

SIMPSON, JESSIE H.—A graduate of Hahnemann Medical College of the Pacific, San Francisco. 1905. Died in Banning, Calif., October 13, 1920. Age 47.

SNOWDEN, CORA.—A graduate of the Los Angeles College of Osteopathy, January, 1910. Licensed in California 1910. Died in San Francisco January 24, 1919.

STEVENS, R. A.—A graduate of the Physicians & Surgeons, Keokuk, 1879. Licensed in California 1889. Died in Long Beach, Calif., October 15, 1920.

WEYER, G. A.—A graduate from the University of California 1899. Licensed to practice medicine in California 1900. Died in San Francisco, November 19, 1920. Was a member of the Medical Society, State of California.

WOODS, W. E. JOSEPHINE.—A graduate of University of California 1885. Licensed in California 1886. Died in Los Angeles October 15, 1920.
